

This advice serves as a general reference for the current Australian qualifications for occupations assessed by TRA. The list is not exclusive. Where a TRA skills assessment requires an Australian qualification alternative qualifications or older versions of the qualification may be accepted if they are relevant to your occupation and the skills assessment determines you meet the assessment standard for your occupation. However, all qualifications submitted remain subject to TRA assessment criteria. International students intending study in Australia should consult training.gov.au and seek advice on suitability of any training for their preferred occupation, including any eligibility requirements or restrictions. Please contact TRA if further advice is required. All qualifications in the table are subject to change and the list will be periodically reviewed by TRA. (28 February 2025)
